Professional profile

Mechanical engineer and energy sector executive with more than 27 years of experience in Bangladesh's gas sector. Career spans gas transmission and distribution, infrastructure development, national regulatory oversight and executive management. Combines operational knowledge with corporate governance, project evaluation and strategic energy advisory experience.

Professional experience

Energy Sector Consultant

Independent consultancy

Advisory work in oil and gas exploration and production, onshore and offshore drilling, LNG and storage facilities, petroleum depots and terminals. Supports procurement, international tendering, EPC and EPCM development, and strategic investment evaluation.

Board Director

Bakhrabad Gas Distribution Company Limited

Contributes to corporate governance and strategic oversight.

Managing Director | 1 July 2025–1 March 2026

Bakhrabad Gas Distribution Company Limited

Led the company through to retirement from public service, with responsibility for executive management and gas distribution operations.

Director Gas | 2023–2025

Bangladesh Energy Regulatory Commission

Oversaw CNG and LPG licensing and natural gas and LPG pricing. Led LPG price-compliance monitoring and convened gas-related technical committees.

General Manager | 2019–2023

Pashchimanchal Gas Company Limited

Held senior management responsibilities in regional gas infrastructure, project delivery and service operations.

Deputy General Manager | 2016–2019

Pashchimanchal Gas Company Limited

Contributed to gas infrastructure development and operational management.

Earlier career | 1999–2016

Bakhrabad Gas Systems Company Limited and PGCL

Joined Bakhrabad Gas Systems on 7 February 1999; served there until 2003. Joined PGCL in 2003 and progressed through management responsibilities.

Selected achievements

• Contributed to BGDCL's financial turnaround: FY 2025–26 profit after tax was BDT 78.26 crore, compared with a BDT 201.95 crore loss in FY 2024–25. Profit before contribution to the workers' profit participation fund was BDT 125.52 crore, compared with a BDT 104.65 crore loss.

• Played a key role in reducing BGDCL system loss from 10% to below 6.93%.

• Completed the BDT 56 crore SASEC project during 2018–June 2023 and deposit works of approximately BDT 10 crore for RDA and RHD.

• Played a vital role in recovering BDT 96 crore from BSCIC in Rajshahi and Sirajganj.

• Contributed to gas network development in Rangpur, Nilphamari and Pirganj and to securing ECNEC project approval.

• Led the installation of a gas meter testing bench and contributed to preliminary proposals for gas supply expansion in Bogra and Rajshahi.
